**Capgemini Pvt Ltd, Pune**

**Automation Test Engineer (5.1 Years Experience)**

Cell: + 91-8208134953

Email: [rajatnkumar55@gmail.com](mailto:rajatnkumar55@gmail.com)

## **Career Objective:**

I am looking forward to work in an organization, which provides the environment for growth with competent and strong leaders in Manual and Automation Testing having an experience in Functional, Non Functional, UI Testing, Web service Testing using API Testing and Automation Testing (Selenium Web Driver with JAVA). I have an urge and inclination for learning new technologies, a strong work ethic combined with a commitment to excellence in all projects undertaken.

## **Summary:**

- A skilled software professional with more than 5.1 years of experience in **Testing Web based applications** using **Manual Testing** and **Automation Testing using Selenium web driver** for Investment, Telecom and Data industry.
- Core expertise in Software Testing, Manual Testing, System & Functional Testing, Automation Testing, Data Base Testing, API Testing.
- Well versed in **Software Development Life Cycle [SDLC]** and **Software Testing Life Cycle [STLC]** including various testing phases like Functional, System, Re-testing, Sanity and Regression Testing.
- Hands on experience in **Agile Methodology with Scrum Framework**.
- Good knowledge and experience in JIRA
- Extensive expertise in designing and documenting the **test strategies** and **test plans**.
- Extensive experience in Writing and executing selenium Test Cases, Test Scenario, Test Planning, Test Reporting, and creating use cases to ensure highest possible code quality.
- Highly skilled in test environment management, planning walkthroughs and reviews, **defect reporting and tracking**.
- Able to **design the Traceability Matrix** to map Business Requirements with test Case.
- Extensive experience in developing SQL scripts to validate the database tables and reports data for database testing using DML and DDL commands.
- Good Experience in **Web Service Testing with the help of SOAP UI Tool**. Also Good Experience in **WSDL, UDDI and Assertions**.
- Good understanding of **Postman & SOAPUI in API Testing**.
- Good knowledge of **service used Get, Put, Patch, Post and Delete**.
- Performed Automation testing using Selenium on Web based (Browser) application.
- Developed User Defined functions to support the automated scripts. Used the **Data driven Testing-using Selenium**.
- Experience in **Automation Testing Tools like Selenium Web Driver**.
- Knowledge in Core java concepts.
- Experience in **designed Functional TestNG framework**.

- **Expertise in locating elements using XPATH.**
- Experience in **creating and executing test scripts as parallel and sequential using Web driver TestNG with Java.**
- Knowledge of **JAVA, OOPS Concept, Collection framework, Array and String class.**
- Experience in **handling iFrame, Pop –Ups, Dropdowns, Screen Shots, List Box.**
- Having knowledge about **waits in Selenium Web Driver (Implicit, Explicit).**
- Good Knowledge of **Exceptions handling in Selenium Web Driver.**
- Good Knowledge of Excel Handling using Selenium (Parameterization).
- Good understanding of **Action Class, Mouse Action in Selenium.**
- Experience in working on **Page Object Model Design pattern with Data Driven Framework.**
- **Able to run the test cases for all browsers namely IE, Chrome, Firefox and Opera.**
- Worked on **Repository management tool like GitHub and knowledge of Continuous Integration tool like Jenkins.**
- Proficient experience in **Test Case Design, Test Execution, Bug tracking and Reporting.**
- Possess problem-solving skills, ability to follow industry standards and procedures. Ability to quickly master new concepts, applications and a team player. Strong communication and interpersonal skills. Ability to interact with customers with ease and professionalism.
- Result oriented, self-driven, highly motivated, smart and hungry to learn new technologies, methodologies, strategies and processes.

### **Technical Skills:**

- Operating Systems: Windows XP, Windows 7, Windows 10, UNIX, Linux
- Programming Languages: Basics of JAVA.
- Testing Tools: HPALM, JIRA.
- Database: My-SQL, Oracle, Snowflake.
- Web services and API: Postman, SoapUI
- Microsoft Office: MS Word, MS Power point, MS Excel, MS Team.
- Automation: Selenium web driver, TestNG and Data Driven Framework
- Automation Tool: Eclipse, VS Code.

### **Professional Experience:**

Company 3. Working as Automation Test Engineer at Capgemini Pvt. Ltd, Pune from 31 May 2021 to Till date.

Company 2. Previously Worked as Senior Quality Engineer at LTIMindtree Pvt. Ltd, Pune from 1 October 2021 to 24 Feb 2025.

Company 1. Previously Worked as Quality Engineer at Mehta Enterprises from 1 Feb 2018 – 29 Feb 2020.

### **Educational Qualification:**

B.E with First Class from Amravati University, Maharashtra.

## Projects Profile:

### **Project #1**

**Title** : Spectra

**Domain** : Data

## Description:

Spectra Decision Cloud is a platform that facilitates your journey from data to decision-making. It optimizes operations across the data value chain by unifying all the components of the modern data stack. It amplifies the capabilities of the various elements in the data cloud, application, and data infrastructure layers through their effective integration and simplifies how organizations interact with their data. The Spectra Decision Cloud empowers users to organize data, build impactful AI applications, and explore their curiosity to uncover new insights and make more outcome focused business decisions in real-time.

## Roles and Responsibility:

- Analyzing & validating the completeness of business requirements.
- Developed Automation Test Scripts.
- Designed and executed test cases according to functional specifications.
- Generating Regression Test scripts by extracting the requirements that need to be tested from available documentation and analyzing with the relevant people.
- Creating POM (page object model) and Test classes for the framework.
- Retesting defect fixes on each release build.
- Performed Smoke, System and Functional, Retesting, Regression testing.
- Experience in Designing and implementation of TestNG framework with JavaScript.
- Experience in Designing and implementation of TestNG framework with Web driver.
- Performed parameterization to implement Data Driven framework.
- Conduct Internal Test Case Peer Reviews.
- Participated in weekly status meetings with the team, developers to discuss open issues and communicating with onsite team.
- Propose improvements to current practices ensuring that approved enhancement are fully implemented and the repeat errors are eliminated.
- Worked with Selenium Automation testing.

### **Project #2**

**Project Name:** Revenue Management Control (RMC)

**Domain** : Telecom

**Client** : Emery Telecom, USA

## Description:

Every Telecom's Managed IT Services can handle the technical aspects so that you can focus on what your business does best. From single computers to the entire office including servers, printers, backup and storage. Wired and wireless networks, software installation and troubleshooting. Emery Telecom provides a full equipment replacement warranty on all leased

equipment as long as the lease is active. For purchase systems, manufacturer warranty limitations apply but Emery Telecom provides assistance with the billing and CRM services to its customers as well services is open, scalable and flexible reference architecture. Customers can log on, pay bills, shop for plans and phones, manage their accounts and download media like ringtones, games and applications.

### **Roles and Responsibilities:**

- Designing and executing test cases according to the Functional specifications.
- Execute SQL queries for getting data from the database to do testing.
- Gather new requirements and design documents also analyze and understand the requirements.
- Requirement Analysis and communicating with PO for better understanding of the requirements.
- Identified Test Scenarios, Test Cases and Test Data.
- Execution of test cases from Test Lab in JIRA.
- Performing Functional Testing, Regression Testing.
- Validation of Expected output Vs Actual output in respective database tables using SQL.
- Validation of Expected output Vs Actual Output in respective logs files using UNIX.
- Participated in the Test case review.
- Log defect in JIRA.
- Reporting the Regular status to the higher authorities in a timely manner.

### **Strengths:**

- Good understanding ability to quickly adapt to new Technologies and Tools.
- Strong Analytical, Communication and Interpersonal skills matched with the ability to manage Stress, Time and People effectively.
- Ability to manage work under pressure and with tight timelines.

### **Personal Profile:**

Date of Birth: 20/02/1995

Marital Status: Married

Present Address: Kalate Nagar, Wakad, Pune- 411057.

Language Known: English, Hindi and Marathi.

**Date:**    /    / 2025

**Place:** Pune
